31. (Previously Presented) The device of claim 30, further comprising a club face angle guide, the club face angle guide comprising a plurality of hash marks extending radially outward from the tee bore.
32. (Previously Presented) The training device of Claim 29, wherein the club path indicators include at least one of a primary club path, inside-out club path, outside-in club path or take away club path indicator.
33. (Previously Presented) The training device of Claim 29, wherein the swing reference guide further comprises a club face angle indicator associated with each of the shot selection types.
34. (Previously Presented) The training device of Claim 29, further comprising a club face angle indicator having at least one of an open club face, closed club face or a square club face indicator.
35. (Previously Presented) The training device of Claim 29, wherein the template is constructed of impact resistant plastic and coated with an ultraviolet protective layer.
36. (Previously Presented) The training device of Claim 29, further comprising a handle.
37. (Previously Presented) The device of Claim 29, wherein the graphic design is attached to a top surface of the template.
38. (Previously Presented) The device of Claim 29, wherein the graphic design is laminated within the template.
39. (Previously Presented) The device of claim 29, wherein the link comprises a first insignia associated with at least one of the plurality of shot selection types and a corresponding insignia associated with at least one of the club path indicators.
40. (Previously Presented) The device of claim 39, wherein the first insignia and corresponding insignia each comprise an alphanumeric character.
